**Volume 18, Number 1** **January 2000**

Editorial i

A. BRUNSMANN, G. FRANZ, J. ERZINGER AND D. LANDWEHR: Zoisite- and clinozoisite-segregations in metabasites (Tauern Window, Austria) as evidence for high-pressure fluid–rock interaction 1

J. ARNOLD, R. POWELL AND M. SANDIFORD: Amphibolites with staurolite and other aluminous minerals: calculated mineral equilibria in NCFMASH 23

M. L. WILLIAMS, E. A. MELIS, C. F. KOPF AND S. HANMER: Microstructural tectonometamorphic processes and the development of gneissic layering: a mechanism for metamorphic segregation 41

D. L. WHITNEY AND Y. DILEK: Andalusite–sillimanite–quartz veins as indicators of low-pressure–high-temperature deformation during late-stage unroofing of a metamorphic core complex, Turkey 59

K. PETRINI AND YU. PODLADCHIKOV: Lithospheric pressure–depth relationship in compressive regions of thickened crust 67

C. J. CARSON, G. L. CLARKE AND R. POWELL: Hydration of eclogite, Pam Peninsula, New Caledonia 79

B. WORLEY AND R. POWELL: High-precision relative thermobarometry: theory and a worked example 91

M. B. HOLNESS: Metasomatism and self-organization of dolerite dyke–marble contacts: Beinn an Dubhaich, Skye 103

Forthcoming papers 119

**Volume 18, Number 2** **March 2000**

J. G. LIOU AND D. A. CARSWELL: Preface: Garnet peridotites and ultrahigh-pressure minerals 121

H. K. BRUECKNER AND L. G. MEDARIS: A general model for the intrusion and evolution of 'mantle' garnet peridotites in high-pressure and ultra-high-pressure metamorphic terranes 123

H. L. M. VAN ROERMUND, M. R. DRURY, A. BARNHOORN AND A. A. DE RONDE: Super-silicic garnet microstructures from an orogenic garnet peridotite, evidence for an ultra-deep (>6 GPa) origin 135

R. Y. ZHANG, J. G. LIOU, J. S. YANG AND T.-F. YUI: Petrochemical constraints for dual origin of garnet peridotites from the Dabie-Sulu UHP terrane, eastern-central China 149

J.-J. YANG AND B.-M. JAHN: Deep subduction of mantle-derived garnet peridotites from the Su-Lu UHP metamorphic terrane in China 167

C.-H. TSAI, J. G. LIOU AND W. G. ERNST: Petrological characterization and tectonic significance of retrogressed garnet peridotites, Raobazhai area, North Dabie Complex, east-central China 181

A. KADARUSMAN AND C. D. PARKINSON: Petrology and $P$–$T$ evolution of garnet peridotites from central Sulawesi, Indonesia 193

E. KROGH RAVNA: The garnet–clinopyroxene $Fe^{2+}$–Mg geothermometer: an updated calibration 211

Forthcoming papers 221

**Volume 18, Number 3** **May 2000**

S. BOSE, M. FUKUOKA, P. SENGUPTA AND S. DASGUPTA: Evolution of high-Mg–Al granulites from Sunkarametta, Eastern Ghats, India: evidence for a lower crustal heating–cooling trajectory 223

A. K. ENGVIK AND T. B. ANDERSEN: Evolution of Caledonian deformation fabrics under eclogite and amphibolite facies at Vårdalsneset, Western Gneiss Region, Norway 241

L. J. A. BOLDER-SCHRIJVER, L. M. KRIEGSMAN AND J. L. R. TOURET: Primary carbonate/$CO_2$ inclusions in sapphirine-bearing granulites from central Sri Lanka 259

A. KROHE AND N. WAWRZENITZ: Domainal variations of U–Pb monazite ages and Rb–Sr whole-rock dates in polymetamorphic paragneisses (KTB Drill Core, Germany): influence of strain and deformation mechanisms on isotope systems 271

T. GAYK AND R. KLEINSCHRODT: Hot contacts of garnet peridotites in middle/upper crustal levels: new constraints on the nature of the late Variscan high-$T$/low-$P$ event in the Moldanubian (Central Vosges/NE France) 293

A. J. BARKER, D. G. BENNETT, A. J. BOYCE AND A. E. FALLICK: Retrogression by deep infiltration of meteoric fluids into thrust zones during late-orogenic rapid unroofing 307

J. C. LEWIS, T. B. BYRNE, J. D. PASTERIS, D. LONDON AND G. B. MORGAN, VI: Early Tertiary fluid flow and pressure–temperature conditions in the Shimanto accretionary complex of south-west Japan: constraints from fluid inclusions 319

J.-M. MONTEL, J. KORNPROBST AND D. VIELZEUF: Preservation of old U–Th–Pb ages in shielded monazite: example from the Beni Bousera Hercynian kinzigites (Morocco) 335

Forthcoming papers 343

**Volume 18, Number 4** **July 2000**

R. DE MORAES AND R. A. FUCK: Ultra-high-temperature metamorphism in Central Brazil: the Barro Alto complex 345

G. L. CLARKE, K. A. KLEPEIS AND N. R. DACZKO: Cretaceous high-$P$ granulites at Milford Sound, New Zealand: metamorphic history and emplacement in a convergent margin setting 359

G. C. ZHAO, S. A. WILDE, P. A. CAWOOD AND L. Z. LU: Petrology and $P$–$T$ path of the Fuping mafic granulites: implications for tectonic evolution of the central zone of the North China craton 375

G. LI, E. J. ESSENE, D. R. PEACOR AND D. S. COOMBS: Reactions leading to the formation and breakdown of stilpnomelane in the Otago Schist, New Zealand 393

T. GRAESSNER, V. SCHENK, M. BRÖCKER AND K. MEZGER: Geochronological constraints on the timing of granitoid magmatism, metamorphism and post-metamorphic cooling in the Hercynian crustal cross-section of Calabria 409

P. W. O. HOSKIN AND L. P. BLACK: Metamorphic zircon formation by solid-state recrystallization of protolith igneous zircon 423

G. FRASER, I. McDOUGALL, D. J. ELLIS AND I. S. WILLIAMS: Timing and rate of isothermal decompression in Pan-African granulites from Rundvågshetta, East Antarctica 441

Forthcoming papers 455

**Volume 18, Number 5** **September 2000**

S. RALSER: Microstructural constraints on the timing of Proterozoic deformation in Central New Mexico 457

J. A. MILLER AND I. CARTWRIGHT: Distinguishing between seafloor alteration and fluid flow during subduction using stable isotope geochemistry: examples from Tethyan ophiolites in the Western Alps 467

A. P. ÖNEN AND R. HALL: Sub-ophiolite metamorphic rocks from NW Anatolia, Turkey 483

R. W. WHITE, R. POWELL, T. J. B. HOLLAND AND B. A. WORLEY: The effect of $TiO_2$ and $Fe_2O_3$ on metapelitic assemblages at greenschist and amphibolite facies conditions: mineral equilibria calculations in the system $K_2O$–FeO–MgO–$Al_2O_3$–$SiO_2$–$H_2O$–$TiO_2$–$Fe_2O_3$ 497

V. A. LIOGYS AND D. M. JENKINS: Hornblende geothermometry of amphibolite layers of the Popple Hill gneiss, north-west Adirondack Lowlands, New York, USA 513

P. ÁRKAI, M. P. MATA, G. GIORGETTI, D. R. PEACOR AND M. TÓTH: Comparison of diagenetic and low-grade metamorphic evolution of chlorite in associated metapelites and metabasites: an integrated TEM and XRD study 531

R. A. COOKE, P. J. O'BRIEN AND D. A. CARSWELL: Garnet zoning and the identification of equilibrium mineral compositions in high-pressure–temperature granulites from the Moldanubian Zone, Austria 551

B. J. STEPHENSON, D. J. WATERS AND M. P. SEARLE: Inverted metamorphism and the Main Central Thrust: field relations and thermobarometric constraints from the Kishtwar Window, NW Indian Himalaya 571

R. SPIESS, B. BERTOLO, A. BORGHI, M. CHINELLATO AND M. TINOR CENTI: Microtextures of opaque inclusions: their use as indicators for hiatuses during garnet porphyroblast growth 591

Forthcoming papers 605

**Volume 18, Number 6** **November 2000**

I. CARTWRIGHT AND I. S. BUICK: Fluid generation, vein formation and the degree of fluid–rock interaction during decompression of high-pressure terranes: the Schistes Lustrés, Alpine Corsica, France 607

T. R. ARMSTRONG AND R. J. TRACY: One-dimensional thermal modelling of Acadian metamorphism in southern Vermont, USA 625

H. ABD EL-NABY, W. FRISCH AND E. HEGNER: Evolution of the Pan-African Wadi Haimur metamorphic sole, Eastern Desert, Egypt 639

S. WALLIS AND M. AOYA: A re-evaluation of eclogite facies metamorphism in SW Japan: proposal for an eclogite nappe 653

G. FRASER, B. WORLEY AND M. SANDIFORD: High-precision geothermobarometry across the High Himalayan metamorphic sequence, Langtang Valley, Nepal 665

S. GUPTA, A. BHATTACHARYA, M. RAITH AND J. K. NANDA: Contrasting pressure–temperature–deformation history across a vestigial craton–mobile belt boundary: the western margin of the Eastern Ghats Belt at Deobhog, India 683

Y. KATZIR, D. AVIGAD, A. MATTHEWS, Z. GARFUNKEL AND B. W. EVANS: Origin, HP/LT metamorphism and cooling of ophiolitic mélanges in southern Evia (NW Cyclades), Greece 699

K. A. JONES AND R. A. STRACHAN: Crustal thickening and ductile extension in the NE Greenland Caledonides: a metamorphic record from anatectic pelites 719

M. BALLÈVRE, A. MÖLLER AND B. J. HENSEN: Exhumation of the lower crust during crustal shortening: an Alice Springs (380 Ma) age for a prograde amphibolite facies shear zone in the Strangways Metamorphic Complex (central Australia) 737
Forthcoming papers 749
